I OPPOSE THE DRAFT M.O.U. being proposed by the FDA^{NO:12} In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

Comments: NO! NO! NO!!! Patients will still

use "DRUG" pharmacies but some also need the
medication rx's provided by compounding pharmacies
Why can't patients be allowed by law to
use both? I simply need an answer!

The only reason for this unbelievable proposal is that drug companies are only interested in profit - PERIOD!!

The patient's health & well-being is really no concern of theirs!

Put compounding pharmacies in every state - Don't LIMIT or DENY their services to many who NEED THEM!
